BRIDGE PROGRAM: ACADEMIC TUTORING

Bridge participants may request one-on-one tutoring, in addition to classroom learning. Tutors are devoted to helping learners who cannot attend regularly scheduled Bridge Program classes or those who are in classes and could benefit from additional direct instruction in English as a Second Language, writing, computer skills or high school diploma preparation. At the college level, tutors are available to help with introductory writing classes only. Tutors are available on the Cambridge and Longwood campuses before and after work hours.

Contact the Bridge Program to request a tutor or complete the [Tutor Request Form](#).
