access these  
resources

Here you can  
learn about all  
of the benefits  
you have to  
support  
distance  
learning

CHECK OUT OUR BACK-TO-SCHOOL RESOURCE GUIDE and SAFETY CENTER to learn about options to run background checks of your own to make the best hiring decisions.

# Backup Care for Children

ENROLL ON YOUR CARE@WORK PORTAL  
TO ACCESS THESE BENEFITS

\*Pre-registration required on HARVie

**BACKUP CARE:** When your regular care isn't available, you can use vetted, subsidized care for children. Our in-network backup caregivers can:

- Ensure children attend required distance learning activities for school
- Help children read directions for distance learning and offer guidance in following those directions
- Assist children to contact their teacher or a parent when they are unable to complete distance learning activities or homework

Note: Backup Care is a great short-term solution, but these caregivers are not certified tutors and cannot support multi-family learning pods for school-aged children.

Make sure to visit your Care@Work portal to see how many Backup Care days you have as well as your co-pay information. Watch this video to see a step-by-step guide on how to book [in-home Backup Care](#) and [in-center Backup Care](#).
