SEIU Members: Your union also offers you the option of combined medical, dental, and vision at no cost for you and your eligible dependents. If you are in the SEIU Plan, you cannot enroll in Harvard’s dental or vision plan. Note: Registered domestic partners are not eligible for this coverage.

Retirees under 65: Retirees and eligible spouses/domestic partners and dependents under age 65 may choose from the plans offered to active employees; please review the Retiree Health page for details.

This is an overview of your medical plans. For more detailed information about coverage and costs—including copayments, deductibles, and out-of-pocket maximums, please refer to the 2018 Medical Plan Care Comparison Chart for your employee group on the website.

HMO, POS, AND PPO PLANS

Your costs when receiving medical services through the HMO, POS, and PPO plans depend on the type of service and whether you receive care in- or out-of-network.

- Preventive care as defined by the federal Affordable Care Act (ACA) that is received from an in-network provider is fully covered, with no charge to you. This includes annual physicals, well-baby and well-child visits, immunizations, and routine vision care.
- In-network office visits for care of illness or injury, outpatient mental health visits, occupational or physical therapy, prescriptions, and emergency room visits are subject to applicable copayments. Hospitalization and high-tech imaging are subject to copayments or deductible and coinsurance, as applicable.
- In-network outpatient diagnostic lab tests and X-rays are fully covered.
- All in-network costs including copayments (and deductibles and coinsurance if your plan has them) count toward your annual out-of-pocket maximum. Monthly premiums do not count toward your annual out-of-pocket maximum. If you reach the out-of-pocket maximum in a calendar year, all further in-network costs are fully (100%) covered by your medical plan for the rest of the calendar year.
- Out-of-network services (available with the POS and PPO only) are subject to separate deductibles, coinsurance, and out-of-pocket maximums.
POS PLUS PLAN (FACULTY AND NONUNION STAFF ONLY)

The POS Plus plan works similarly to the other POS plan. Preventive care as defined by the ACA and received in-network is fully covered and in-network office visits, emergency room visits, and prescriptions are subject to copayments. However, with this plan option, you pay no deductible or coinsurance for medical services received in-network. The POS Plus has higher monthly premiums in exchange for lower costs at the point of care.

Out-of-network services under the POS Plus plans are subject to a deductible, coinsurance and separate out-of-pocket maximums.

HIGH-DEDUCTIBLE HEALTH PLAN (HDHP) WITH HEALTH SAVINGS ACCOUNT (HSA) (FACULTY AND NONUNION STAFF ONLY)

The HDHP with HSA is a different type of plan. It is a lower-premium, high-deductible health insurance plan combined with a tax-free savings account that lets you save additional money for health expenses now or later in retirement. Like the other plans, the HDHP is offered through HPHC and HUGHP Blue Cross Blue Shield of MA; HUGHP HDHP members have access to an expanded network of Blue Cross Blue Shield of MA providers that includes Harvard University Health Services (HUHS). The HSA feature is administered by Benefit Strategies.

The HDHP provides you with the flexibility to use in-network or out-of-network providers (you'll pay more for out-of-network services). In-network preventive care as defined by the ACA is covered at 100%, like Harvard’s other health plans.

For all other services, including prescriptions, you pay the full cost of care until you meet the deductible. If you have family coverage, you must meet the entire family deductible before the plan begins paying. Once you meet the deductible, you share in the cost of care (your coinsurance) with the plan paying most of the costs, until you reach the annual out-of-pocket maximum. Once you meet the annual maximum, the plan pays 100% of further costs for the rest of the calendar year. If you have family coverage, you must meet the entire family out-of-pocket maximum before the plan begins paying at 100%.

If you enroll in the HDHP, you may make tax-free contributions to an HSA to be used to pay out-of-pocket medical, dental, and vision expenses. Harvard will also make a tax-free contribution to your HSA of $500 for individual coverage or $1,000 for family coverage for eligible, active faculty and nonunion staff members. Please see the Flexible Spending Account/Health Savings Account Overview for more detailed information including eligibility requirements.
Prescription Drug Coverage for all plans

Your prescription drug benefit is included as part of your medical coverage and is administered by OptumRx, a pharmacy benefits manager. Most major pharmacy chains accept OptumRx. Present your OptumRx ID card when filling prescriptions. You can save money on medications you take on a long-term basis by using mail order with OptumRx. With OptumRx mail order, you can buy up to a 90-day supply at a reduced copayment when compared to retail pharmacies. Call OptumRx at 844-265-1224 for more information about your mail order options.

(Note: You may fill 90-day prescriptions at CVS at retail copayment prices.)

COPAYMENT (COPAY) is a fixed amount you pay for a healthcare service or prescription drugs.

DEDUCTIBLE is the amount you owe before your insurance begins covering certain services such as hospitalization or outpatient surgery.

COINSURANCE is the amount you pay, as a percentage of the cost of your allowed services, after you meet the deductible until you reach the plan's out-of-pocket maximum.

ALLOWABLE CHARGE is the dollar amount typically considered payment-in-full by an insurance company and an associated network of healthcare providers.

OUT-OF-POCKET MAXIMUM is the most you pay per Plan Year for healthcare expenses, including prescription drugs. Once this limit is met the plan pays 100% for the remainder of the Plan Year.

PLAN YEAR is the same as a calendar year.

---

### GLOSSARY

Here's a quick refresher on commonly used medical/dental terms:

**COPAYMENT (COPAY)** is a fixed amount you pay for a healthcare service or prescription drugs.

**DEDUCTIBLE** is the amount you owe before your insurance begins covering certain services such as hospitalization or outpatient surgery.

**COINSURANCE** is the amount you pay, as a percentage of the cost of your allowed services, after you meet the deductible until you reach the plan’s out-of-pocket maximum.

**ALLOWABLE CHARGE** is the dollar amount typically considered payment-in-full by an insurance company and an associated network of healthcare providers.

**OUT-OF-POCKET MAXIMUM** is the most you pay per Plan Year for healthcare expenses, including prescription drugs. Once this limit is met the plan pays 100% for the remainder of the Plan Year.

**PLAN YEAR** is the same as a calendar year.
