

## Don't Let Them Slip Away: Caring for Loved Ones with Dementia

August 8 | 1:00pm - 2:00pm EST | Webinar

### ABOUT THIS EVENT

There are more than 5 million Americans currently living with Alzheimer's disease and more than 15 million family caregivers who help them in the U.S. In just 10 years, that number is projected to increase by 40 percent. This webinar will review the different forms of dementia, including Alzheimer's, and signs your loved one may have the disease. Learn about helpful strategies that can improve the quality of life for you and your loved one.

Join Care.com for this free webinar to learn:

- The effect Alzheimer's and dementia have on the brain.
- Care options to consider.
- How to connect emotionally & creatively.
